

COUNSELING CONNECTIONS

Friends of the Center

With 2008 drawing to a close, we look back on the year proudly as we count the number of people CareNet Counseling helped with our many services. We helped people who were going through divorces, financial difficulties, family crises, and many other of life's hurdles. We look forward to 2009 with great hope. These are hard times and we know that many more people in our community will be facing personal crises. CareNet Counseling's services will be needed more than ever.

CareNet Counseling is one of the oldest counseling programs in the nation, and is the only Pastoral Counseling Center in Winston-Salem accredited by the Samaritan Institute. Our faith-integrated counseling services are a unique ministry that many in our community count on to help them through the many difficulties of life. Last year our licensed staff provided 7,300 hours of counseling services and over \$56,000 in free and reduced fee care. Our client aid fund (provided by gifts such as yours) assists those who do not have health insurance and who cannot cover the full cost of professional counseling services.

We need your help to make sure we can continue to provide first-rate professional counseling to Winston-Salem and the surrounding areas. Our professionally trained counselors provide valuable services to people of every age - children dealing with a parent's divorce or peer pressure, adults dealing with growing children, marital difficulties, or aging issues of their own, to aging adults dealing with health crises. We want to ensure that every one of our clients will have access to our services regardless of their financial situation.

Please consider giving a tax-deductible gift to CareNet Counseling today. Your gift will make a tremendous difference in the lives of many in the Winston-Salem community.

Thank you in advance for your caring and compassion. You are helping CareNet continue it's rich heritage of bringing hope and healing to men, women, and children of all faiths.

Yes, I would like to join Friends of the Center
